

WINTER

SPRING

Seasonal Changes

SUMMER

Autumn

Observe and describe weather
associated with winter.

There are 4 seasons.

With your family,
discuss what you already know about

WINTER

Here are some facts about

It is the coldest season
of the year.

It rains more and can
sometimes snow.

The days are short
and the nights are
long.

Some animals like bears and
hedgehogs sleep for the
whole winter. This is called
hibernation.

Why do you think they do
that?

Most trees and
plants stop growing
and lots of trees
lose their leaves.

We wear clothes to keep
us warm and dry.

We celebrate Christmas!

Activity

Make a pair of mittens for our class display.
Use whatever materials you can use at home.
If this is tricky, maybe you can design and draw
some mittens. Have fun!

- * Mittens to keep you warm!
- * Be creative!
