

## Art - Self Portraits

### Home Learning January 2021

Look at the pictures of the children below.

How do you think they are feeling?

Look carefully at the expressions on their faces and how it changes their features.

Your task is to create a self portrait (no bigger than A4) of you showing one of the following emotions; **happiness, surprise, excitement, joy.**

Use a mirror to look at yourself showing these emotions and copy carefully. Use which ever art medium you prefer; pencil, paint, collage, fiber - use your imagination!

Don't forget to take inspiration from artistic styles too; abstract, pointillism, pop art, cubism and land/earth art to name a few.

We can't wait to see your self portraits and put them in our new classroom!

Have fun.
